

Acquisition & Address Change Announcement

April 7, 2019

I am pleased to announce the acquisition of Universal Drilling & Cutting Equipment (UDCE) by OSL Cutting Technologies. OSL (Sheffield, UK) brings decades of experience, a state-of-the-art supply chain, and a commitment to service and quality that is worthy of the Unibor name. The Unibor product line will be expanding with new and innovative products, and OSL's commitment to growth in the USA ultimately means a stronger focus on delivery, support, and service.

To accommodate our anticipated growth, Unibor is moving into a larger facility. Effective April 15, 2019, all shipments, returns, and postage should be directed to the address below. Please contact us at the email or phone number below with any questions. As always, thank you for your partnership and support.

**Universal Drilling
DBA - Unibor
77 Eisenhower Lane S.
Lombard, IL 60148**

Very Best Regards,

Michael Hatfield
Vice President
